

PROJECT ARCHIVES

Over the course of their professional experience, the senior members of *Dumontlinks* have had the opportunities to collaborate with a wide array of clients ranging from the scale of private estates to city districts and national parks. We have also had the opportunity to collaborate with mentors and talented professionals who contributed to the project's success and ideas. The following archive represents projects led, planned, designed by Ricardo, Gregory, and Pablo. Despite the wealth of technology in graphic communication seen here, the means to formulate and communicate ideas remains often the simple hand drawn sketch or diagram.

PL: planning
UD: urban design
LA: landscape
ARCH: architecture
CE: civil engineering
