

GAUTAM SUNDARAM

Gautam has over eighteen years of national and international experience that encompasses a diverse range of project types in the United States, Abu Dhabi, and India. He has successfully managed and led teams towards a phased implementation on numerous projects, from concept to built environments, for mixed-use, institutional, campus environments, sports venues, and waterfront development projects of varying scales. His design of large scale complex projects that require innovative and sustainable solutions starts with a deep understanding of existing conditions, infrastructure, socio- and economic issues. He draws from his diverse backgrounds and is passionate about creating projects that integrate architecture and landscape seamlessly. He believes in a collaborative design approach and works toward developing a technical craft that is an artful expression of contemporary landscapes.

EDUCATION

University of Massachusetts at Amherst, Master of Landscape Architecture

BKPS College of Architecture, Pune, India, Bachelor of Architecture

WORK EXPERIENCE

DumontJanks

Sasaki Associates

Geller Devellis (acquired by Stantec)

REGISTRATIONS
